

Mannion Insurances Remuneration Policy

We, Jim Mannion & Co. (Insurances) Ltd. T/A Mannion Insurances, act as intermediary (Broker) between you, the consumer, and the product provider with whom we place your business.

The Background

Pursuant to provision 4.58A of the Central Bank of Ireland's September 2019 Addendum to the Consumer Protection Code, all intermediaries, must make available in their public offices, or on their website if they have one, a summary of the details of all arrangements for any fee, commission, other reward or remuneration provided to the intermediary which it has agreed with its product producers.

What is Remuneration?

Remuneration is the payment earned by the intermediary for work undertaken on behalf of both the provider and the consumer. The amount of remuneration is generally directly related to the value of the products sold.

What is Commission?

Commission is payment that may be earned by an intermediary for work undertaken for both provider and consumer.

There are different types of remuneration and different commission models:

Single Commission Model: Payment is made to the intermediary shortly after the sale is completed and is based on a percentage of the premium paid/amount invested.

Trail/Renewal Commission Model: Further payments at intervals are paid throughout the life span of the product.

Indemnity Commission Model: A commission payment made before the commission is deemed to be 'earned'. This may be subject to a clawback (see below) if the consumer lapses or cancels the product before the commission is deemed to be earned.

General Insurance Products

General insurance products are typically subject to a single or standard commission model, based on the amount of premium charged for the insurance product. This is the model in which Mannion Insurances receive their commissions.

Profit Share Arrangements

In some cases, the intermediary may be a party to a profit-share arrangement with a product provider and will earn additional commission. Any business arranged with these product providers on a client's behalf will be placed with the product provider because that product provider is at the time of placement, the most suitable to meet the client's requirements, taking all the client's relevant information, demands and needs into account.

Life Assurance/Investments/Pension Products

For Life Assurance products commission is divided into initial commission and renewal commission (related to premium), fund based or trail (relating to accumulated fund).

Trail commission, bullet commission, fund based, flat commission or renewal commission are all terms used for ongoing payments. Where an investment fund is being built up through an insurance-based investment product or a pension product, the increments may be based on a percentage of the value of the fund or the annual premium. For a single premium/lump sum product, the increment is generally based on the value of the fund.

Life Assurance products fall into either individual or group protection policies and Investment/Pension products would be either single or regular contribution policies. Examples of products include Life Protection, Regular Premium Life Assurance Investments, Single Premium (lump sum) Insurance-based Investments, and Single Premium Pensions.

Investments

Investment firms, which fall within the scope of the European Communities (Markets in Financial Instruments) Regulations 2007 (the MiFID Regulations), offer both standard commission and commission models involving initial and trail commission. Increments may be based on a percentage of the investment management fees, or on the value of the fund.

Fees

The firm may also be remunerated by fee by the product producer such as policy fee, admin fee, or in the case of investment firms, advisory fees.
